Amendments to the Specification:

This listing of the specification will replace all prior versions of the corresponding paragraph of the specification in the application.

Please amend the paragraph beginning on page 2, line 5 to read as follows:

FIG. 4 shows an example of a structure of a conventional optical information recording medium in which two information layers are provided. In the conventional optical information recording medium 101, a first information layer 103, an optical separating layer 104 and a second information layer 105 are provided in this order from the laser beam incident side between a first substrate 102 and a second substrate 106. In the first information layer ~~102~~103, a protective layer 1031, a recording layer 1032, a protective layer 1033, a reflective layer 1034 and a transmittance adjusting layer 1035 are provided in this order from the laser beam incident side.
